

TRAINING & EVENTS

Our training and events are everywhere. We've got coverage across the UK and Ireland, as well as our online webinars that bring enablement direct to your desk. On top of our team of Westcoast specialists, you also have access to vendor contracted trainers that provide extensive training on some of our most popular products.

Solutions Centre

Custom-built following reseller research, the Westcoast Solutions Centre in Milton Keynes is the ideal facility for training and networking.

Packed with the latest devices from some of our key vendors, we can provide demos across sales and technical sessions, whether it's for your staff or a customer. If you want to do something more bespoke, you can also book out the Solutions Centre free of charge for an upcoming event or meeting that you're planning.

Whether you want to host your own customer event, familiarise your sales staff with the latest technology, or just hold a face-to-face meeting in a convenient location, the Solutions Centre can accommodate you.

Training

Training opportunities are available at the Solutions Centre and various locations nationally, and they're unparalleled for sheer quality of content. On top of our own experts, we also work with specialist trainers to deliver deep dives and accreditation sessions, some of which span multiple days.

Alongside face-to-face courses, we run a variety of interactive webinars and have a wealth of pre-recorded training videos ready to go on our YouTube channel.

Events

In case all of this wasn't enough, we also host a number of leading industry events throughout the year in partnership with our vendors, featuring industry-leading keynote speakers, in-depth breakout sessions and technology demo labs.

As you'd expect, our directors and technology experts are in constant demand, being asked to speak at industry events and summits on a regular basis. Perhaps we'll see you at the next one?
